Your Insight

Our Mission

Insight NDE, your choice for NDE services
and Advanced Technology solutions.

Ensuring the integrity of your assets is our priority. Insight NDE is equipped with the most innovative and reliable technology on the market today. Our industry is technology driven and we have made a commitment to stay ahead of the competition. We would like to be your single source provider for all NDT related business. Our forward thinking and innovations demonstrates our ability to adapt to a diverse and ever changing environment.

APPLICATION DEVELOPMENT

We have solutions for your toughest applications. From X-Ray to Phased Array TFM/FMC we can help. Let Insight NDE find the solution that is right for your company needs and bring you the results that matter most. Share your application and we will custom design an inspection technique that works for you.

AUT Solutions is the industry leader in the manufacture of Automated Ultrasonic Testing Equipment. We have the capabilities to support your needs with Automated Corrosion Mapping as well as Multi Channel HIC/SOHIC for the detection of Hydrogen Induced Cracking. From pipelines to pressure vessels and storage tanks we can identify the damage mechanism and quantify the extent of the issue.

Insight NDE can plan and execute AUT applications for RBI compliance based on your company procedures and supply comprehensive reporting to meet the standards set by RBI.

INSIGHT NDE

OUR STAFF

Insight NDE is staffed with industry leading veterans. We pride ourselves with the ability to staff large projects quickly and with the right technology as well as talent.

- Upstream
- Downstream
